PROFESSIONAL SUMMARY

Results-driven Web Developer with experience building scalable and user-focused web applications. Skilled in PHP, Laravel, MySQL, JavaScript, HTML5, and CSS3. Experienced in both front end and back end development. Expert in RESTful API integration, database design, and responsive UI creation. Collaborates effectively with teams to deliver secure and high-performance web solutions. Focused on clean code, strong problem solving, and continuous learning in modern web technologies.

Top Achievements:

- Built and deployed multiple full-stack PHP applications with 100% uptime and high performance.
- Boosted site speed by 30% through optimized code and smart database design.
- Enhanced interactivity with REST APIs, AJAX CRUD operations, and dynamic Livewire components.
- Strengthened user security with robust authentication systems.
- Leveraged Filament for advanced admin interfaces and efficient backend management.

CORE COMPETENCIES

- Designed responsive and semantic web pages using HTML5 and CSS3 with Flexbox, Grid, and Media Queries.
- Built mobile first interfaces with Bootstrap using reusable components and a flexible grid system.
- Developed interactive client side features using modern JavaScript (ES6+) and DOM manipulation.
- Used AJAX and Fetch API for asynchronous data loading and real time API communication.
- Managed structured data exchange with JSON between frontend and backend systems.
- Created secure session management and authentication using PHP, password_hash, and password_verify.
- Designed and integrated RESTful APIs with JSON responses for smooth frontend and backend interaction.
- Implemented dynamic CRUD operations using PHP, jQuery, and AJAX for efficient data management.
- Applied MVC architecture to organize projects for clean code and better scalability.
- Built dynamic dashboards using **Laravel Livewire** for reactive interfaces and **Filament** for admin panels.

EDUCATION

Bachelor of Science

03/2017 - 03/2021

FUUAST, Islamabad

- Computer Science[BSCS]

Intermediate

09/2014 - 07/2016

Punjab College, Golar Mora Campus Peshawar Road Rawalpindi

- ICS

INTERNSHIP

PHP Laravel Developer [Ezline Software House]

05/2021 - 03/2022

- Developed and deployed **dynamic, full-stack web applications** using the **Laravel framework** and **MySQL**.
- Optimized **database queries** and backend logic, improving overall **application performance by 30%**.
- Collaborated with **UI/UX designers** and front-end teams to ensure **seamless integration** and responsive user interfaces.
- Conducted **code reviews**, implemented **secure authentication**, and followed best practices for **application security and maintainability**.
- Integrated **RESTful APIs** and **AJAX-based functionalities** to enhance interactivity and data flow between client and server

PERSONAL PROJECTS

1. Ai Ecommerce Store with chatbot
 2. Hotel Room Booking Management
 3. RestApi
- [GitHub Portfolio](#)

CERTIFICATES

Advanced Web App Development

- Navttc [prime ministry youth skill development program]

HOBBIES & WEBSITES PROJECTS

- Designing and developing **PHP Laravel-based web applications** with a focus on **clean architecture, responsive UI/UX design, and optimized database performance**.
- Browsing & exploring websites and searching for new ideas for applications and websites
